

The Chatham County - Savannah Metropolitan Planning Commission is seeking qualified applicants for the position listed below.

GIS Developer: A Bachelor's Degree in Computer Science, GIS or a related field with at least three to five (3-5) years of professional GIS experience is required. The GIS Developer will work under the SAGIS Director to provide geospatial application design, implementation, analysis, and database management required for SAGIS and partner operations. The position will be responsible for publishing map services, GIS application development, spatial based mapping and analysis, creating and updating geodatabases, web site design, and other GIS tools and applications. Experience with ArcGIS, advanced knowledge of geographic concepts, and strong organizational skills are required. Experience with custom GIS applications, ArcGIS Server, scripting and automation, and enterprise geodatabase management is preferred. Technical writing, excellent public speaking skills, and the ability to collaborate across agencies are essential. Full job description is attached.

Send resume and cover letter to: Lara Hall, SAGIS Director, Chatham County-Savannah Metropolitan Planning Commission, P. O. Box 8246, Savannah, GA 31412-8246; phone: 912-651-1440; fax: 912-335-5922; or email: halll@thempc.org with the following subject line: GIS Developer. Position is open until filled. Salary will be commensurate with experience and qualifications.

MPC IS AN EQUAL OPPORTUNITY EMPLOYER, M/F/H

Chatham County- Savannah Metropolitan Planning Commission

Position Description

Position Title: GIS Developer

Department: SAGIS

Reports to: SAGIS Director

FLSA: Exempt

Date Updated: 6/17/2020

General Position Description:

The GIS Developer will be a part of a team responsible for providing geospatial applications and customizations to Savannah Area GIS (SAGIS) customers, partners and the general public. Responsibilities include GIS programming using current programming languages, creating and maintaining custom GIS applications, tools and analysis, updating datasets, creation of datasets, maintaining GIS services and other related activities.

Specific Duties:

- 1) Develop/maintain custom applications for SAGIS customers
- 2) Develop/maintain custom scripts to aid in SAGIS activities
- 3) Maintain notes for programming processes and methodologies
- 4) Employ proper data coding techniques and keep current on latest technologies / software
- 5) Assist other staff with GIS programming requirements and application development
- 6) Participate in data production, editing and automation of data layers maintained by SAGIS
- 7) Compile/maintain metadata for data layers maintained by SAGIS
- 8) Participate in meetings and events for GIS users
- 9) Assist the MPC, County and City staff with their GIS needs

Minimum Employment Standards:

- 1) Bachelor's Degree in Geography, Computer Science or related field
- 2) Minimum of three years of experience in GIS and/or custom programming
- 3) Experience with geodatabase creation and maintenance
- 4) Experience with building GIS applications using Esri technology
- 5) General understanding of GIS principles and terminology

Required Knowledge, Skills, and Abilities:

- 1) Knowledge of desktop and online geographic information system programs and operations
- 2) Knowledge of application development principles and best practices
- 3) Knowledge of database management and other computer principles as they relate to GIS
- 4) Knowledge of personal computer operation, terminology, hardware, software and operating systems
- 5) Ability to assist with the operation and improvement of GIS applications
- 6) Ability to prepare effective written and oral reports and presentations of work
- 7) Ability to analyze and interpret mapping systems and technical data
- 8) Familiarity with local and wide area computer networks, internet, and remote access computer systems
- 9) Ability to organize and complete multiple concurrent projects in a timely manner
- 10) Ability to read a variety of informational documentation, directions, instructions, and methods and procedures such as software manuals, computer manuals, policy manuals, professional journals, and related policies and procedures
- 11) Ability to establish and maintain effective working relationships with MPC, City and County employees, members of private industry, and the general public
- 12) Knowledge of public administration principles and practices

Accountability:

1. Maintains realistic schedule and meets deadlines
2. Able to explain and discuss GIS systems
3. Reports to SAGIS Director on all assigned projects
4. Maintains effective working relationships
